Dear Mr. **Personal Matters / Ex. 6**

It was pleasant speaking with you. We acknowledge that we have received your alleged air quality concerns against Mid-America Steel Drum facility located in Oak Creek, Wisconsin. As I explained you in our conversation, Congresswoman Gwen Moore (representing Wisconsin's 4th District) has scheduled a public meeting on January 27, 2018 in St. Francis and Milwaukee, Wisconsin. A meeting invitation is attached for your reference.

Also, EPA, Region 5 has set up a webpage and uploaded all related documents of EPA's investigation of Container Life Cycle Management, LLC d/b/a Mid America Drum Company for potential environmental violations. Also, here is the link for the CLCM website: <https://www.epa.gov/wi/documents-epa-investigation-milwaukee-company-potential-environmental-violations>

Please go through the information and let me know if you have any further questions. We look forward to assist you for your alleged concerns against the Mid-America Steel Drum Company.
